AMI - Advanced Machine Intelligence raises a massive €890M inaugural round to build world models. 🌍🧠

World models are a new class of AI models that understands the physical world, reasons about cause and effect, and operates with the reliability that high-stakes industries demand. This is a fundamentally different approach from current language models, and it is being built from Europe, for the world. 🇪🇺

A huge round of applause to **Yann LeCun**, **Alex LeBrun**, **Laurent Solly**, **Saining Xie**, **Michael Rabbat** and **Pascale Fung** for this first milestone. We can't wait to see what's next! 🙌

Congratulations to **Cathay Innovation**, **Greycroft**, **Hiro Capital**, **HV Capital** and **Bezos Expeditions** for leading the round. We are thrilled to join this journey alongside **Xavier Niel**, **AGLAÉ VENTURES**, **daphni**, **Eurazeo**, among (many) others. 🍷

#AI #wordmodels

LLMs are fundamentally limited by language. World models introduce so many different dimensions.
