Anshul Agarwal

Investor and Entrepreneur
United States

Summary

Investor in several unicorn exits including Lucid Motors, Docusign, Wise (TransferWise), OSIsoft, Netskope

Started my career at a Tech startup (Epic Systems Corp) as a software engineer and then product manager, eventually ran business development as the company transformed into a unicorn and most dominant software player in the Healthcare industry. Subsequently did brief stints in management consulting, finance/ CFO before finding my way to venture capital.

Currently, I'm excited to help build a different kind of venture firm. LG Tech Ventures (LGV) feels like a startup... and we have scaled quickly to ~\$1B in AUM!

I have a global investment mandate while being based in Silicon Valley. The majority of my investments are based in the USA, with others scattered across Israel and Asia. I currently have ~10 Board seats at startups where I'm actively involved in management and governance.

Past investments include:

Lucid Motors (IPO), DocuSign (IPO), Wise/TransferWise (IPO), OSIsoft (acquired), Netskope (IPO), Box (IPO), Axeda (acquired) and many others.

Current LGV investments include: May Mobility, Airalo, and Claroty (all unicorns where I invested early in the Series A), and many others listed in my profile.

Experience

LG Technology Ventures

Managing Director

November 2018 - Present (7 years 5 months)

San Francisco Bay Area

Managing Director & voting member of the Investment Committee at LG Technology Ventures (LGV).

LGV is managing ~\$1B in funds backed by various affiliates of the LG Group (\$150B global revenue). Global mandate, based in Silicon Valley. <https://lgtechventures.com/>

Investing in Series A, B and C companies across a wide range of Tech sectors including AI, Robotics, Enterprise Software, Consumer, EV & Electrification, etc.

In addition to investing, I help create bridges between big companies (i.e. potential customers) and interesting startups.
