Supporting European entrepreneurs building the next generation of AI is one of our strongest convictions at [Eurazeo](#).
We're proud to participate in the \$1.03B seed round of [AMI - Advanced Machine Intelligence](#), founded by [Yann LeCun](#), alongside a group of leading global investors. 🙌

🖥️ AMI's ambition is to explore a new path for AI systems beyond today's language models developing "world models" capable of understanding and interacting with the world in fundamentally new ways.

Building these new AI architectures is both a profound scientific challenge and a long-term technological bet, requiring exceptional talent and vision.

We believe Europe has one of the world's deepest pools of AI researchers and engineers. With the right capital and support, European companies can compete and lead at the global frontier of AI.

Congratulations to [Yann LeCun](#), [Alex LeBrun](#), [Laurent Solly](#), [Léopold Treppoz](#) and the entire AMI team on this milestone.

And congratulations to our venture team for this exciting addition 🙌:
