Cofounded the company with Kim Bosun and Olivier Mouroux.

Nuance Communications

VP, Special Projects

January 2013 - May 2013 (5 months)

Sunnyvale, CA

VirtuOz (Acquired by Nuance Communications)

Founder and CEO

July 2002 - December 2012 (10 years 6 months)

VirtuOz is the world leader in Intelligent Virtual Agents (“Siri for the Enterprise”). AT&T, Symantec, Kaspersky and others use Intelligent Virtual Agents to provide world-class, automated, personalized online marketing, sales, and support channels to their customers.

- I bootstrapped the company in Paris, coded the initial product from scratch (based on an innovative, proprietary NLP approach and Machine Learning techniques), and built the development team.

- Raised \$2M Series A in France in 2005 and reached profitability in 2007

- Moved the company to San Francisco and raised \$11.4M Series B in 2008

KDS

Product & Business Development

July 1999 - June 2001 (2 years)

I contributed to turn a new travel reservation technology at a 15-people start-up into the leading Business Travel Management SaaS in Europe.

Education

Ecole polytechnique

BS, Computer Science · (1994 - 1997)

MSEE, Software Engineering, Cognitive Sciences · (1997 - 1999)

Y Combinator W14

Disciple of Paul Graham
